

 **SATSUMMIT 2026**

SATSUMMIT ST LOUIS 2026

**SPONSOR
PROSPECTUS**

**NOVEMBER 18 & 19
SATSUMMIT.IO**

WELCOME!

SatSummit convenes leaders from the satellite industry alongside experts in global development for two days of presentations and in-depth conversations, focused on solving the world's most pressing challenges with satellite data.

From climate change and population growth to food security, conflict, and natural resource management, Earth observation is reshaping how we understand and respond to global issues. SatSummit brings together the people building these capabilities with those applying them on the ground—bridging technology and impact at a critical moment for the field.

SPONSORSHIP IMPACT

SatSummit is not possible without community support. We're excited to partner with leaders in the satellite and development communities, and through your sponsorship and support of SatSummit, we are solving real-world challenges.

Your sponsorship not only elevates your brand but also contributes significantly to the advancement of humanitarian and climate initiatives. By supporting SatSummit, you are a vital part of a community harnessing satellite technology for a better world.

BRINGING TOGETHER EARTH OBSERVATION & IMPACT

To realize the full value of
incredible technology.

ABOUT US

This year's co-hosts include original conveners Development Seed alongside Taylor Geospatial and Common Space. Together, these organizations bring their unique expertise and shared vision to create an event that is not only informative but also transformative.

SatSummit is not a for-profit event and would not be possible without community support.

HIGHLIGHTS

INDUSTRY TRENDS

Explore emerging trends and insights into the evolving landscape of satellite technology and its increasing role in global development.

AGENCY CHALLENGES

Address critical challenges faced by agencies in the development sector on resource allocation, data management, and cross-sector collaboration.

TECHNOLOGY & POLICY

How can advancements in satellite technology be effectively integrated with policy frameworks to address global issues more comprehensively?

SPONSORSHIP OPPORTUNITIES

Join us as a sponsor at SatSummit 2026, a decisive event that unites satellite industry innovators with leaders solving our world's most pressing problems. SatSummit offers an exclusive opportunity to engage with experts and decision-makers at the forefront of addressing humanitarian and climate challenges through advanced satellite technology.

Organizers do not make any profit on SatSummit. Support from the community is what makes this event possible.

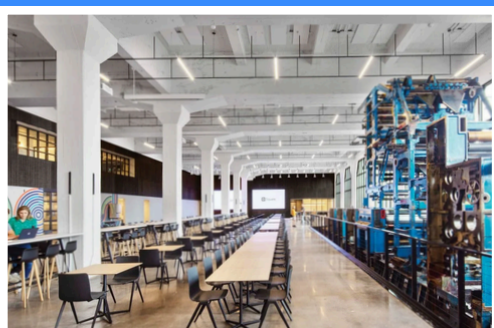

What you get:

- **Unparalleled Networking Opportunities**
- **Showcase Your Commitment to Global Development**
- **Gain Industry Insights**
- **Targeted Exposure**
- **Contribute to Meaningful Conversations**

WHERE IS SATSUMMIT THIS YEAR?

St. Louis is emerging as a leading hub for geospatial innovation, where cutting-edge satellite technology meets real-world applications in agriculture, climate, and global development.

With a strong ecosystem anchored by research institutions, industry leaders, and mission-driven organizations, it's an ideal place for leaders to converge, collaborate, and turn data into impact.
